## NEW MEMBER OF THE EDITORIAL BOARD

---

**Georgios N. Anastassakis**

### CURRENT AFFILIATION

National Technical University of Athens (NTUA)

School of Mining Engineering and Metallurgy

9 Heroon Polytechniou str., 157 80 Zographou, Greece

Tel.: +30 210 772 2162, Fax: +30 210 772 2119,

E-mail: [ganastas@metal.ntua.gr](mailto:ganastas@metal.ntua.gr)

### FIELDS OF EXPERTISE

Mineral Processing, Physical Chemistry and Hydrodynamics of Flotation, Physical Chemistry of Surfaces, Colloids,

Fine and ultra-fine particles interactions and processing, Water effluent purification, Solid waste processing and recycling, Soil cleaning, etc.

### BIOGRAPHY

He is Professor at National Technical University of Athens, School Mining Engineering and Metallurgy, in the field of Mineral Processing. He graduated from NTUA in 1983 and got his Doctoral degree in 1989. He started his career in 1989 as university teaching associate by contract (1989-92), employed in LARCO GMMSA Ferronickel Co. (1992-94), and elected Lecturer in NTUA in 1994. Since then, he was successively promoted to Assistant, Associate and first-rank Professor in 2009. He served as Head of the Division of Metallurgy and Materials Technology (2010-14) and member of several academic administrative committees.

He has been involved in more than 40 research projects. The results of his research have been presented in more than 60 papers, published in referred scientific journals, Congress Proceedings volumes, and chapters of international books. He has served as reviewer of approximately 35 international journals, several Congresses Proceedings volumes, and reviewer of international research proposals.

---

He is member in several international editorial boards, and served as Editor of the Greek journal “Mineral Wealth” (1994-2012).

He has been invited to give several lectures in foreign Universities, Associations, seminars and Symposiums; he has participated in several congresses, scientific meetings, and seminars.

He was National Representative of Greece in EU Coal and Steel Advisory Group-Steel Subgroup (2008-2010); he was also Chairman of the XII Balkan Mineral Processing Congress organized in Delphi-Greece, in 2007 and the editor of the proceedings.

He is member of several professional and scientific societies: IMPC International Advisory Committee, Balkan Mineral Processing Congress (BMPC) Scientific Committee, Balkan Academy of Science on Mineral Technology BASMT, International Organizing Committee of the International Coal Preparation Congress (ICPC) (corresponding member), Society of Mining Professors (SOMP), Society for Mining, Metallurgy and Exploration Inc. (SME) (2000-2010), International Solid Waste Association (ISWA) (2000-2010), Scientific Advisory Board of MiMeR (Minerals and Metals Recycling) Research Center at Lulea University of Technology, Sweden (2002-4), etc.
